From Mala plaza to the east, there is a pine forest two kilometers long and a beautiful promenade in the urban suburbs. It is a place of clean air right on the seafront, a rescue port for asthmatics. In addition to enriching this area, the Pine Forest has an outstanding health and recreation and aesthetic-decorative function. In this beautiful area is the famous Women Beach with its sulfur springs, which are a real elixir for barren women. The scent of the sea and pine trees create a unique atmosphere.
