

VALLI DI ARGENTA

Via Cardinala, 1, 44011 Campotto FE
44.5602636, 11.7915129

They are among the largest freshwater wetlands in northern Italy, recognized in 1976 under the Ramsar Convention and Sixth Station of the Delta Del Po Emilia-Romagna Park: a territory of 1600 has that includes the coffer of Expansion Campotto-Bassarone and Vallesanta and the igrophilic forest of the Traversante. La wetland of Campotto-Bassarone and the forest of the Traversante are accessible exclusively with guided tour, walking, bike, electric boat and golf car. The wetland of Vallesanta, a short distance from the Museum of the Valleys, is the freely accessible area with cycle-pedestrian paths (6 km) on turf until you reach an observation tower that allows a stunning view from above both of the case of expansion than the wet lawn and the species that frequent these environments.
