It is a large cave, measuring about 300 square meters. The height of the arches is 25m and the depth is 3-4m. It is named after an unusually crystalline blue color that is reflected by the sun's rays that bounce off its surface during bright days. The Blue Cave is located on the Lustica Peninsula between Zlatna Luka and Mala Gora Bay at a distance of 6 nautical miles from Herceg Novi. You can only reach the cave by boat or yacht.
