

Ioannina Castle

Ioannina Castle

39.6639818, 20.8522784

The Ioannina Castle is the fortified old town of the city of Ioannina in northwestern Greece. The present fortification dates largely to the reconstruction under Ali Pasha in the late Ottoman period, but incorporates also pre-existing Byzantine and ancient Greek elements. The castle is located on the southeastern corner of the modern city, on top a rocky promontory jutting into Lake Pamvotis.
