Krka National Park lies about 10km inland from Šibenik in Dalmatia. Named after the Krka River, the Park covers an area of just over 142 square km and includes two thirds of the river itself. The top attractions of the Park are its magnificent waterfalls, including the famous Skradinski Buk waterfall. Other highlights include the small island of Visovac and Roski Slap waterfall. Of particular note, there is a wide variety of both flora and fauna in the Park. Over 800 species of plant life have been identified. There are also many different bird species (there are over 200), and 18 different species of bat who call the Park their home.

## Overview
