

# Pliva waterfall

Jajce

44.3395173, 17.2705155

At 17 meters in height, the Pliva waterfall is one of the most notable features of Jajce. This natural monument is located in the very centre of the town and has been named one of twelve most beautiful waterfalls in the world. It is also the only waterfall in the world to create an estuary as it joins the Pliva River with the Vrbas River. Whether you are standing beneath it or looking down from above, the Pliva waterfall creates a spectacular view.
